## EDUCATION

---

**National University of Sciences and Technology (NUST)**

Bachelors of Electrical Engineering

Rawalpindi, Pakistan

2019-2023

## PROFESSIONAL EXPERIENCE

---

**Full-Stack Developer** — *OmniNav*

Aug 2025 – Present

- Building end-to-end features for a fast-paced startup using Next.js, and TailwindCSS, delivering production-ready functionality at speed.
- Designing scalable front-end architecture and integrating backend services and REST APIs to support the company's growth objectives.
- Collaborating directly with founders to translate business requirements into technical solutions and iterating rapidly based on feedback.

**Front-End Developer** — *Nextpak Agile Solutions*

Apr 2024 – Aug 2025

- Started as a Front-End Developer and quickly transitioned into Full-Stack development, contributing across both UI and backend functionalities.
- Progressed from Front-End Developer to Full-Stack contributor, owning both UI and backend deliverables across multiple products.
- Led two major products builds end-to-end, from design through production deployment as the primary technical lead.
- Designed responsive, accessible front-end solutions with React, Next.js and TailwindCSS, and integrated authentication flows, REST APIs, and third-party services.
- Managed a development team: task distribution, code reviews, and agile sprint planning to consistently meet deadlines.
- Facilitated client-facing meetings to gather requirements, report progress, and align deliverables with business goals.

## PROJECTS

---

**NextEats** — *Restaurant Management Platform*

- Led a team of responsible for requirement gathering, sprint planning, and end-to-end delivery of a full-stack restaurant management system.
- Architected and built the front-end UI: responsive, accessible, and optimized for performance across devices.
- Conducted code reviews and managed agile sprints; coordinated with stakeholders to keep technical work aligned with business objectives.

**Nextel** — *SMS Messaging Provider*

- Designed and implemented both the front-end and backend for a high-throughput SMS messaging platform capable of handling large message volumes.
- Integrated third-party APIs for SMS delivery, payment processing, and analytics; gathered client requirements and translated them into technical architecture.
- Delivered a reliable, scalable system with a clean operator-facing dashboard and secure API layer.
- Delivered a reliable and scalable messaging platform capable of handling high throughput.
